I found a color PFD in the original O&M Plan submitted to EPA in May 2008. The later submittal on March 31, 2009 (the one still waiting for EPA approval) had a black/white version that was stamped confidential, but the drawing date is the same 2006 date.

Note the color one is easy to see the new equipment that was installed and started up in April 2009.

And the HIP and CIP are in that new equipment.
